### **360° Quality: Philosophy and Action**

GEFIT has consistently embraced, implemented, and monitored its ambitious 360° Quality project. This vision is realized through a proven formula: strict adherence to procedures and a commitment to continuous improvement.

By dedicating human, technological, and financial resources to this challenge, the Company distinguishes itself with a concrete and systematic approach. This is achieved through the adoption of the Integrated Quality and Environmental Management System, fully compliant with UNI EN ISO 9001:2015 and UNI EN ISO 14001:2015 standards.

### **An Integrated Policy for the Future**

The Integrated Quality and Environmental Policy is founded on forward-looking strategies and an uncompromising commitment to excellence:

- 1. Exceeding Customer Expectations** – Our global reach drives product diversification and active participation in international markets, positioning us as a strategic and reliable partner wherever our customers operate.
- 2. Total Regulatory Compliance** – We rigorously identify and adhere to all applicable laws, regulations, and requirements.
- 3. Environmental Protection and Prevention** – We proactively identify hazards, anticipate risks, and implement measures to prevent accidents and mitigate environmental impact.
- 4. Sustainable Technological Innovation** – We invest in processes that reduce environmental impact through innovation and advanced digitalization.
- 5. Training and Awareness** – We engage our staff in training and awareness programs, empowering them as key contributors to environmental protection and corporate excellence.
- 6. Communication and Inclusion** – We foster dialogue with all stakeholders, encouraging constructive exchanges internally and externally to achieve true environmental and social sustainability.
- 7. Operational Excellence** – We operate with precision and a holistic perspective, addressing complexity with competence and recognizing that product quality stems from process quality.

### **A Responsible Commitment to Quality and Innovation**

This philosophy, which integrates ESG principles as a catalyst for growth, serves as the foundation for defining and monitoring corporate objectives. It is shared with all employees and made available to external stakeholders.

Driven by a steadfast commitment to all stakeholders, the Company excels in surpassing expectations, embracing change, and continuously adapting to evolving contexts.
